Springfield
"City of Homes"

Form of Government.
Bicameral.

Population.
U. S. Census (1920), 129,614. Estimated (1928), 152,945.

Area.
33.1 sq. miles. Altitude, 66 feet. 119 feet at highest point. Average temperature 49.7°. Rainfall 44.72 inches.

Assessed Valuation.
$279,885,890.00

Tax Rate.
27.5 mills.

Bonded Debt.
$15,989,000.00.

White Population.
149,886.

Colored Population.
3,059.

White Population.
Males 73,444, Females 76,442.

Number of all males.
74,943.

Number of all females.
78,002.

Native Born.
73%.

Predominating Nationalities.
Canadian, Irish, Italian, Russian, Polish, English, Swedish, Scotch, German, Greek.

Parks.
Eleven.

Financial.
Three Banks and three Trust Companies with total deposits of $83,826,552.00, resources of $160,197,178.00 and clearings of $296,082,032.00 annually. Three savings banks. Total deposits $81,031,205.00.

Post Office Receipts.
$1,378,459.94. $17,600 in special deliveries.

Telephones.
29,385 Dial. 14,773 Manual.

Church Buildings.
75, practically all denominations.

Building Construction.
Value of building permits $5,976,799.00. 1,198 new dwelling units constructed this year.

Real Estate Transfers.
Total 27,944.

Homes.
Number of homes 43,439. About 30% owned.

Industrial.
Number of establishments 328, employing 17,059, paying wages of $22,504,231 and having products valued at $105,433,434.00 annually.

Trade (Retail).
Serves 700,000 people within a radius of twenty miles. Jobbing territory serves 1,000,000 people within a radius of 50 miles.

Principal Products.

Electrical equipment, Radios, Automobiles, Paper, Toys and Games, Fiberloid Products, Guns, Pistols, Motocycles, Trolley Cars etc.

Hotels.

Fifteen. Total rooms 2,500. Newest built 1927.

Railroads.

Three.

Newspapers.

Three.

Amusements.

Thirteen theatres. Seating capacity 16,389. Largest theatre seats 2,300. Largest auditorium seats 4,400.

Hospitals.

Four with 722 beds.

Educational.

Number of Schools, 67. Including 5 High Schools and 10 Parochial Schools. Number of pupils in Public Schools, 32,394. In Private Schools, 6,268. Total number of teachers 1,220. Value of school property about $15,000,000.

Public Libraries.

Three, containing 350,000 volumes.

City Statistics.

Total street mileage 203. 176.938 miles paved. Miles of gas mains 233.51. Sewers 210.34. Electric street railway 200 miles including bus routes. Capacity of municipal water works 2 billion gallons, a daily average pump of 13 million gallons and with 250 miles of mains. Value of plant estimated at $12,000,000. Fire department consists of 333 men, 43 pieces of apparatus and 16 stations. Police department consists of 274 men, 33 pieces of motor equipment and 2 stations.

THE CITY TODAY

Springfield, Massachusetts was settled in 1636, as a result of the efforts of William Pynchon and a band of faithful followers who sought the fertile valleys provided for in this part of the country, for homesteading purposes. It was made a town May 14, 1636, O.S., and incorporated a city May 25, 1853.

The city has grown to a community having a population of 152,946. Springfield is 99 miles from Boston; 103 miles from Albany, New York, and 135 miles from New York City. Immediately surrounding Springfield are numerous smaller towns and cities, including among the first, West Springfield, Longmeadow, East Longmeadow, Wilbraham and Ludlow, and among the latter, Chicopee.

Springfield has, since the last part of the eighteenth century, been continuously developing as a manufacturing center, although surrounded by communities developing agricultural pursuits. The industry of the community is of varied quality. The inherent skill of workmen to be found here has developed the popularity of the community as an industrial section. For the most part, raw materials and supplies are transported to the city. The location of the city nearly equidistant from the three large centers—Boston, Albany and New York—is an enviable one.

The rolling hills rising from the Connecticut River Valley provide for excellent residential sections.

The meteorological conditions prevailing gives to Springfield typically New England seasons with charming summers and cold winters with some snow.

SERVICE INSTITUTIONS

Springfield is fortunate in having a group of public utility organizations which aid, and have for many years, in the development of the community. Under the municipality, there operates a Springfield Water Works through whose activities the community is provided with excellent drinking water, piped to the city from the eastern foot-hills of the Berkshires. An excellent reservoir system is being practically doubled in capacity in 1929, and will provide a maximum flow to adequately care for the city for many years to come.

The Springfield Gas Light Company produces water gas in quantities at $1.35 per 1,000 cubic feet to households, and industries. A net work of the piping of this corporation covers nearly the whole city, and is being rapidly extended.

The United Electric Light Company provides light and power on a combined flat rate and low energy charge on the following basis: 4 cents per K. W. for first 150 K. W. per month; 3 cents per K. W. for K. W. over 150; Plus 5 cents per 100 sq. ft. of floor area; minimum floor area, 1,200 sq. ft.

Transportation facilities provided by the Springfield Street Railway Company afford excellent local and interurban transportation service. The rehabilitation of the rolling stock of this company and much of the roadbed has been completed, and the newest type of trolleys and busses are available for use.

Springfield has long been recognized as a community in which the educational facilities are of an unusually high standard. The public school's program is most complete and leads the pupil through the primary grades and junior high schools into one of three high schools of excellent standing and character. In the first—the Central High School—the curriculum is of an essentially academic character, providing for the continuance of education in the academic colleges and universities. The second—the Technical High School—is fundamentally an engineering school and offers courses leading directly to industrial work or into the higher engineering colleges. The third—the High School of Commerce—prepares the pupil thoroughly for a business career and also for entering into a limited group of colleges.

Freight rates prevail for the shipment of raw materials and finished products into and from the city on a basis which permits our manufacturers to compete with others in similar lines in other parts of the country.

Springfield has 43,439 homes, providing accommodations for 40,864 families. Springfield has long been known as a community of home lovers. The environment which has been created is a result of a mixed population, possessing many natural advantages and proving pleasing to all. There are many community civic organizations, each of which was definitely formed for the improvement of its part of the city.

CONSUMING POWER

That 50,000 full car loads of freight were left in Springfield in 1928 will give some idea of the consuming power of the city of Springfield. To this must be added the many truck loads of goods that come over the road. Farm products valued at over $25,000,000. were raised in the Springfield area in 1927 and consumed mostly in this area. Over $60,000,000 worth of raw material was used in our factories in 1927. New England, of which Springfield is a part, is forced to import from outside all basic raw materials even to lumber and depends on its skilled labor and native ingenuity in fabrication to maintain its industrial supremacy. The normal consummation of a population of 152,000 must be augmented by at least 100,000 to include traveling men, attendants at conventions, schools, etc.

INDUSTRIAL SITUATION

The latest available statistics in Springfield show 322 establishments making as many different lines, using raw material valued at $55,000,000, paying wages of $22,000,000, employing over 40,000 people and producing $105,000,000 worth of products. Many of these factories manufacture products known the world over and spread the fame of Springfield into all countries. R. C. A. and Bosch Radios, Rolls Royce automobiles, Indian Motocycles, Smith & Wesson revolvers, Springfield rifle, Absorbine Junior liniment, Fiberloid products, and Milton Bradley games and toys are typical examples. Industry in Springfield is highly diversified though the manufacture of electrical goods and equipment slightly predominates in value all other lines. Skilled artisans can always find steady employment in Springfield due to this condition.

Springfield is justly proud of its title, "The City of Homes," and well deserves it as there is a home for approximately every five people of population, and of those occupied nearly 30% are owned by the occupant. A recent survey showed that of 43,439 dwellings only 212 were classified as untenantable and the majority of these would normally rent for $20 a month or less. This condition is maintained partly by the fact that due to diversity of industry the labor demand is steady. Abundance of water power in the valley has caused erection of enormous hydro-electric stations with the result that reasonable electrical rates prevail and practically all homes enjoy the use of electricity with all its advantages.

FINANCIAL SITUATION

Though having one of the lowest municipal tax rates in Massachusetts, Springfield has been continuously developing without unduly burdening the public and has outstanding bonded indebtedness of but $16,000,000, most of which was incurred for the erection of the Memorial bridge and the installation of one of the finest water supply systems to be found anywhere. Economy is the rule of Springfield's administration though large appropriations for permanent improvements are made yearly to keep pace with the schedule of the City Planning Board. Springfield has 3 national banks, 3 trust companies and 3 savings banks. The total resources of Springfield banks are over $306,000,000, with yearly clearings of $296,000,000. Due to its being so accessibly located, Springfield was chosen as the logical location for the establishment in New England of the district branch of The Federal Farm Loan System.

RETAIL TRADE

While Springfield has a population of but 152,946 people, its retailers serve a territory containing 700,000 population and its largest department store has the distinction of having a larger per capita sale than any other in the country. The three main department stores of Springfield do an annual business in excess of $15,000,000. The large proportion of merchandise carried in Springfield is of a quality nature as there are no great number of the so-called poorer class in Springfield. Seventy-five per cent. of its inhabitants are native born.

WHOLESALE TRADE

Springfield is served north, east, south and west by trunk line railroads and it has consequently become a well-known jobbing center. Stocks carried in Springfield cover practically every well-known product manufactured in the United States applicable to the northern climate and are distributed over a radius of more than 50 miles.

CIVICS AND WELFARE

Of outstanding value is the work done by the City Planning Board, through whose efforts a definite arrangement for the control of the future growth and development of the city is projected and maintained.

Hospital facilities are more than complete, for the community is fortunate in possessing four hospitals caring for general cases, two hospitals maintained particularly for the care of maternity cases; and one hospital for diseases requiring isolation. Springfield is fortunate also in being the home of the Shriner's Hospital for Crippled Children for the whole New England area. Medical and surgical treatment may be had from many physicians and surgeons of repute.

Health and sanitation are carefully guarded. Through our school system the health of the children is given more than adequate attention.

Springfield possesses every type of amusement and recreation offered in cities of its size—theaters, amusement parks, dancing salons, boating, canoeing, golfing, tennis—all of these are available. Supervised recreation for children is made possible through the very efficient work of the Springfield Park Department, through the agency of which are operated twenty-two public playgrounds, and more than twelve hundred acres of public parks.

The annual Music Festival coming in May, is an institution much appreciated by citizens of Springfield and residents of other Connecticut Valley communities.

Of outstanding importance is the Eastern States Exposition held annually in the third week of September on grounds owned by the Exposition, and bringing to the community upwards of three hundred thousand visitors seeking a display of latest agricultural equipment and other displays. Here is held the annual horse show, and to this exposition come the children from the ten eastern states to exhibit their handiwork. On these grounds, the State of Maine, and the Commonwealth of Massachusetts have each erected buildings in which are to be found excellent displays indicative of the quality and character of these two States.

CITY AS A CENTER

Springfield is the center to which tourists come over excellent highways, and through which they pass enroute to Maine, New Hampshire, Vermont, as well as to points of interest in Eastern Massachusetts.

Springfield is a trading center for a population estimated at 700,000. To the community are attracted these persons who seek adequate shopping facilities, excellent stores, fine restaurants and hotels.

The industrial prestige of the city has been developed as a result of the skill of its workers in mechanical trades. It is in a sense an agricultural base, for here is located the Eastern States Farmers' Exchange, the Hampden County Improvement League, and many other agencies working co-operatively for the development of agriculture throughout all of New England.

Springfield is the Western Gateway to New England, and, without question, the most easily accessible city in New England from points outside thereof. During 1928 more than 350,000 persons attended fifty-one conventions held in the city of Springfield. The Springfield Chamber of Commerce operates a Convention Bureau which actively solicits convention business and renders a maximum of co-operation to convention groups meeting in this city.

ADVANTAGES AND CLAIMS

In the last analysis, Springfield is the only city in the area between Boston, Albany and New York that has developed in a balanced way along the lines of beauty, education, finance, industry, mercantile and recreation. It is a community to which persons come to visit and remain to live and prosper.

CITY AS A SERVICE CENTER

The Springfield Chamber of Commerce for more than forty years has functioned in a capacity as a counsel and guide not only to citizens of the community, but to those from other cities seeking information or advice about the city. It is ready to co-operate in every practicable way to assure interested persons that they will receive adequate and reliable information concerning the community and its activities.

MUNICIPAL WATER WORKS.

The works are in charge of a Board of Water Commissioners consisting of Edwin A. Blodgett, chairman; Dr. George L. Fenn and Mayor Fordis C. Parker, ex-officio; Howard M. King, supt.; Leland G. Carlton, asst. supt.; Alfred R. Hathaway, clerk and water registrar; Elbert E. Lochridge, chief engineer. Office, (319) City Hall. Service Building and Yard, 71 Colton. Office hours, 9 a.m. to 5 p.m.; Saturdays 9 a.m. to 12 m. Telephones: (applications and information) 3-2131; (work and trouble calls, day or night) 2-5188. The supply of water is taken from the Westfield Little River watershed, situated principally in the towns of Blandford, Granville, and Russell, and by means of the following storage structures:

	Capacity in Gallons.
Borden Brook Reservoir (impounding)	2,500,000,000
Intake Reservoir (diverting)	40,600,000
Sedimentation Basis (before filtering)	38,700,000
Proven Mountain Reservoir (after filtering)	17,000,000
Total	2,596,300,000

The former supply from impounding reservoirs in Ludlow and Belchertown is also retained at present for towns of Ludlow and Wilbraham and for emergency uses, and, with its storage capacity of 1,434,218,000 gallons, makes an aggregate available storage capacity of 4,030,518,000 gallons.

Range of pressure on mains for day and night as follows: Main street level, maximum, 147 pounds. average, 140 pounds. Hill section level, maximum 87 pounds, average 80 pounds.

The entire supply of city water to any premises is furnished by meter only and at meter rates; the necessary meters are installed by the water works at the expense of the consumers for the initial cost of the meters and connections only. The cost of ordinary care and repairs of all meters is borne by the water works; the cost of unusual repairs (necessitated by freezing, hot water, etc.) due or attributable to any carelessness or neglect on the part of the consumer, will be charged to the consumer or owner.

METER RATES.

(Subject to all rules and regulations).

For each 100 cubic feet (748 gallons) of water as registered or estimated for each independent premises* the rates shall be as follows:

For the first 5,000 cubic feet or less per quarter, at 22 cents per 100 cubic feet (about 30 cents per 1,000 gallons).

For all excess over the first 5,000 cubic feet per quarter, at 5 cents per 100 cubic feet (about 7 cents per 1,000 gallons).

Where the aggregated total use for one independent premises* amounts to 750,000 cubic feet or more in any one quarter, the entire quantity will be charged at 5 cents per 100 cubic feet.

Subject to the following minimum quarterly charges:

(a) Single dwellings and double houses or blocks (of two or more ground-floor single-tenement sections), each tenement not less than $2.00 per quarter.

(b) Tenement houses, apartment blocks, etc., each tenement or apartment not less than $1.50 per quarter.

(c) Business blocks, manufacturies, and other industrial plants, elevators and motors, each bill for each independent premises, not less than $2.50 per quarter.

Special for Elevator Uses—Where the total or aggregated quantity for operating one or more elevators on each independent premises* amounts to 33,000 cubic feet or more in any one quarter, and is metered and billed independently of all other uses, the entire quantity will be computed at 5 cents per 100 cubic feet; but no bill hereunder shall be rendered at less than $25.00 per quarter.

*Business and industrial buildings of more than one section, and adjoining or adjacent buildings, under one independent ownership as a plant (if not separated by a street or by any other buildings or premises under another ownership), may be considered as one independent premises, and as such, subject to the computing and billing of the foregoing meter rates. In all other cases the supply through each service and meter shall be computed and charged as separate and independent bills.

Each quarterly period will be computed and charged for independently of any other quarterly period, and the rates therefor shall be paid accordingly.

When a meter from any cause fails to register the consumption of water, the quantity shall be estimated and the charge made based upon the registration by the meter when in order or upon the registration for a corresponding prior quarter or period.

Builders' Uses—Where water is to be used in the construction of ordinary framed buildings, or for small building operations where the use may be easily estimated, the meter installation may be temporarily deferred, as an accommodation to the owner or builder, until the completion and occupancy of the building, and a nominal estimated flat rate may be charged for builders' use of water to the owner of the property who will be held responsible for such use and the payment of such charge.

The Water Registrar and the Supt. shall determine all cases where the foregoing provisions may apply, and each case shall be considered independently of any other, but no such estimated charge shall be less than $1.00.

Miscellaneous and Temporary Uses—In certain cases of miscellaneous and temporary uses of city water, where the quantity used may be small, the charges for same may be estimated instead of being shown by meter, at the discretion of the Water Registrar and the Supt.

The Water Registrar shall have the right to require an advance deposit as security for the payment of water bills, when he shall consider it for the interest of the city to do so: such deposit not to exceed a year's minimum rate for the property to be supplied or a reasonable estimate of the probable annual amount of such bills.

All bills due the City on account of the Municipal water works shall be payable at the office of the City Collector, Room 137, Municipal Building, Court and Pynchon streets within twenty days after the same are rendered and become due.

Inquiries and claims for correction should be made at the office of the Water Registrar, Room 319, Municipal Building.

Delinquent water bills are a lien on real estate.

SCHOOL DEPARTMENT.

School Board—Fordis C. Parker, Mayor, Chairman, ex-officio. At large, Chester S. McGown; Ward 1, Charles J. McMorrow; Ward 2, Alfred M. Glickman; Ward 3, Chester T. Neal; Ward 4, Mrs. Hazel D. Pike; Ward 5, Asa George Baker; Ward 6, Franklin A. Latimer; Ward 7, Herbert R. Wolcott; Ward 8, Mrs. Ruby C. Lanckton. Sec., Edwina A. Miller.

The difference between

Reference and

Creative media

is their direction

The seller's efforts to stimulate demand is well carried by outgoing, extensive, display media, but—

he should remember that initiative rests with the buyer, and when the hunt for the goods begins, creative media which may have built up the demand, are at a disadvantage.

It is the difference between coming and going.

The creative advertising is going after the prospect, to make him want to buy, but when you have him coming, reference media should be used to connect the demand with the local supply. Every effort should be made to direct the demand to the goods advertised, at the point where they may be seen.

It is here that reference media, directories, find their logical place in the cycle of the sale.

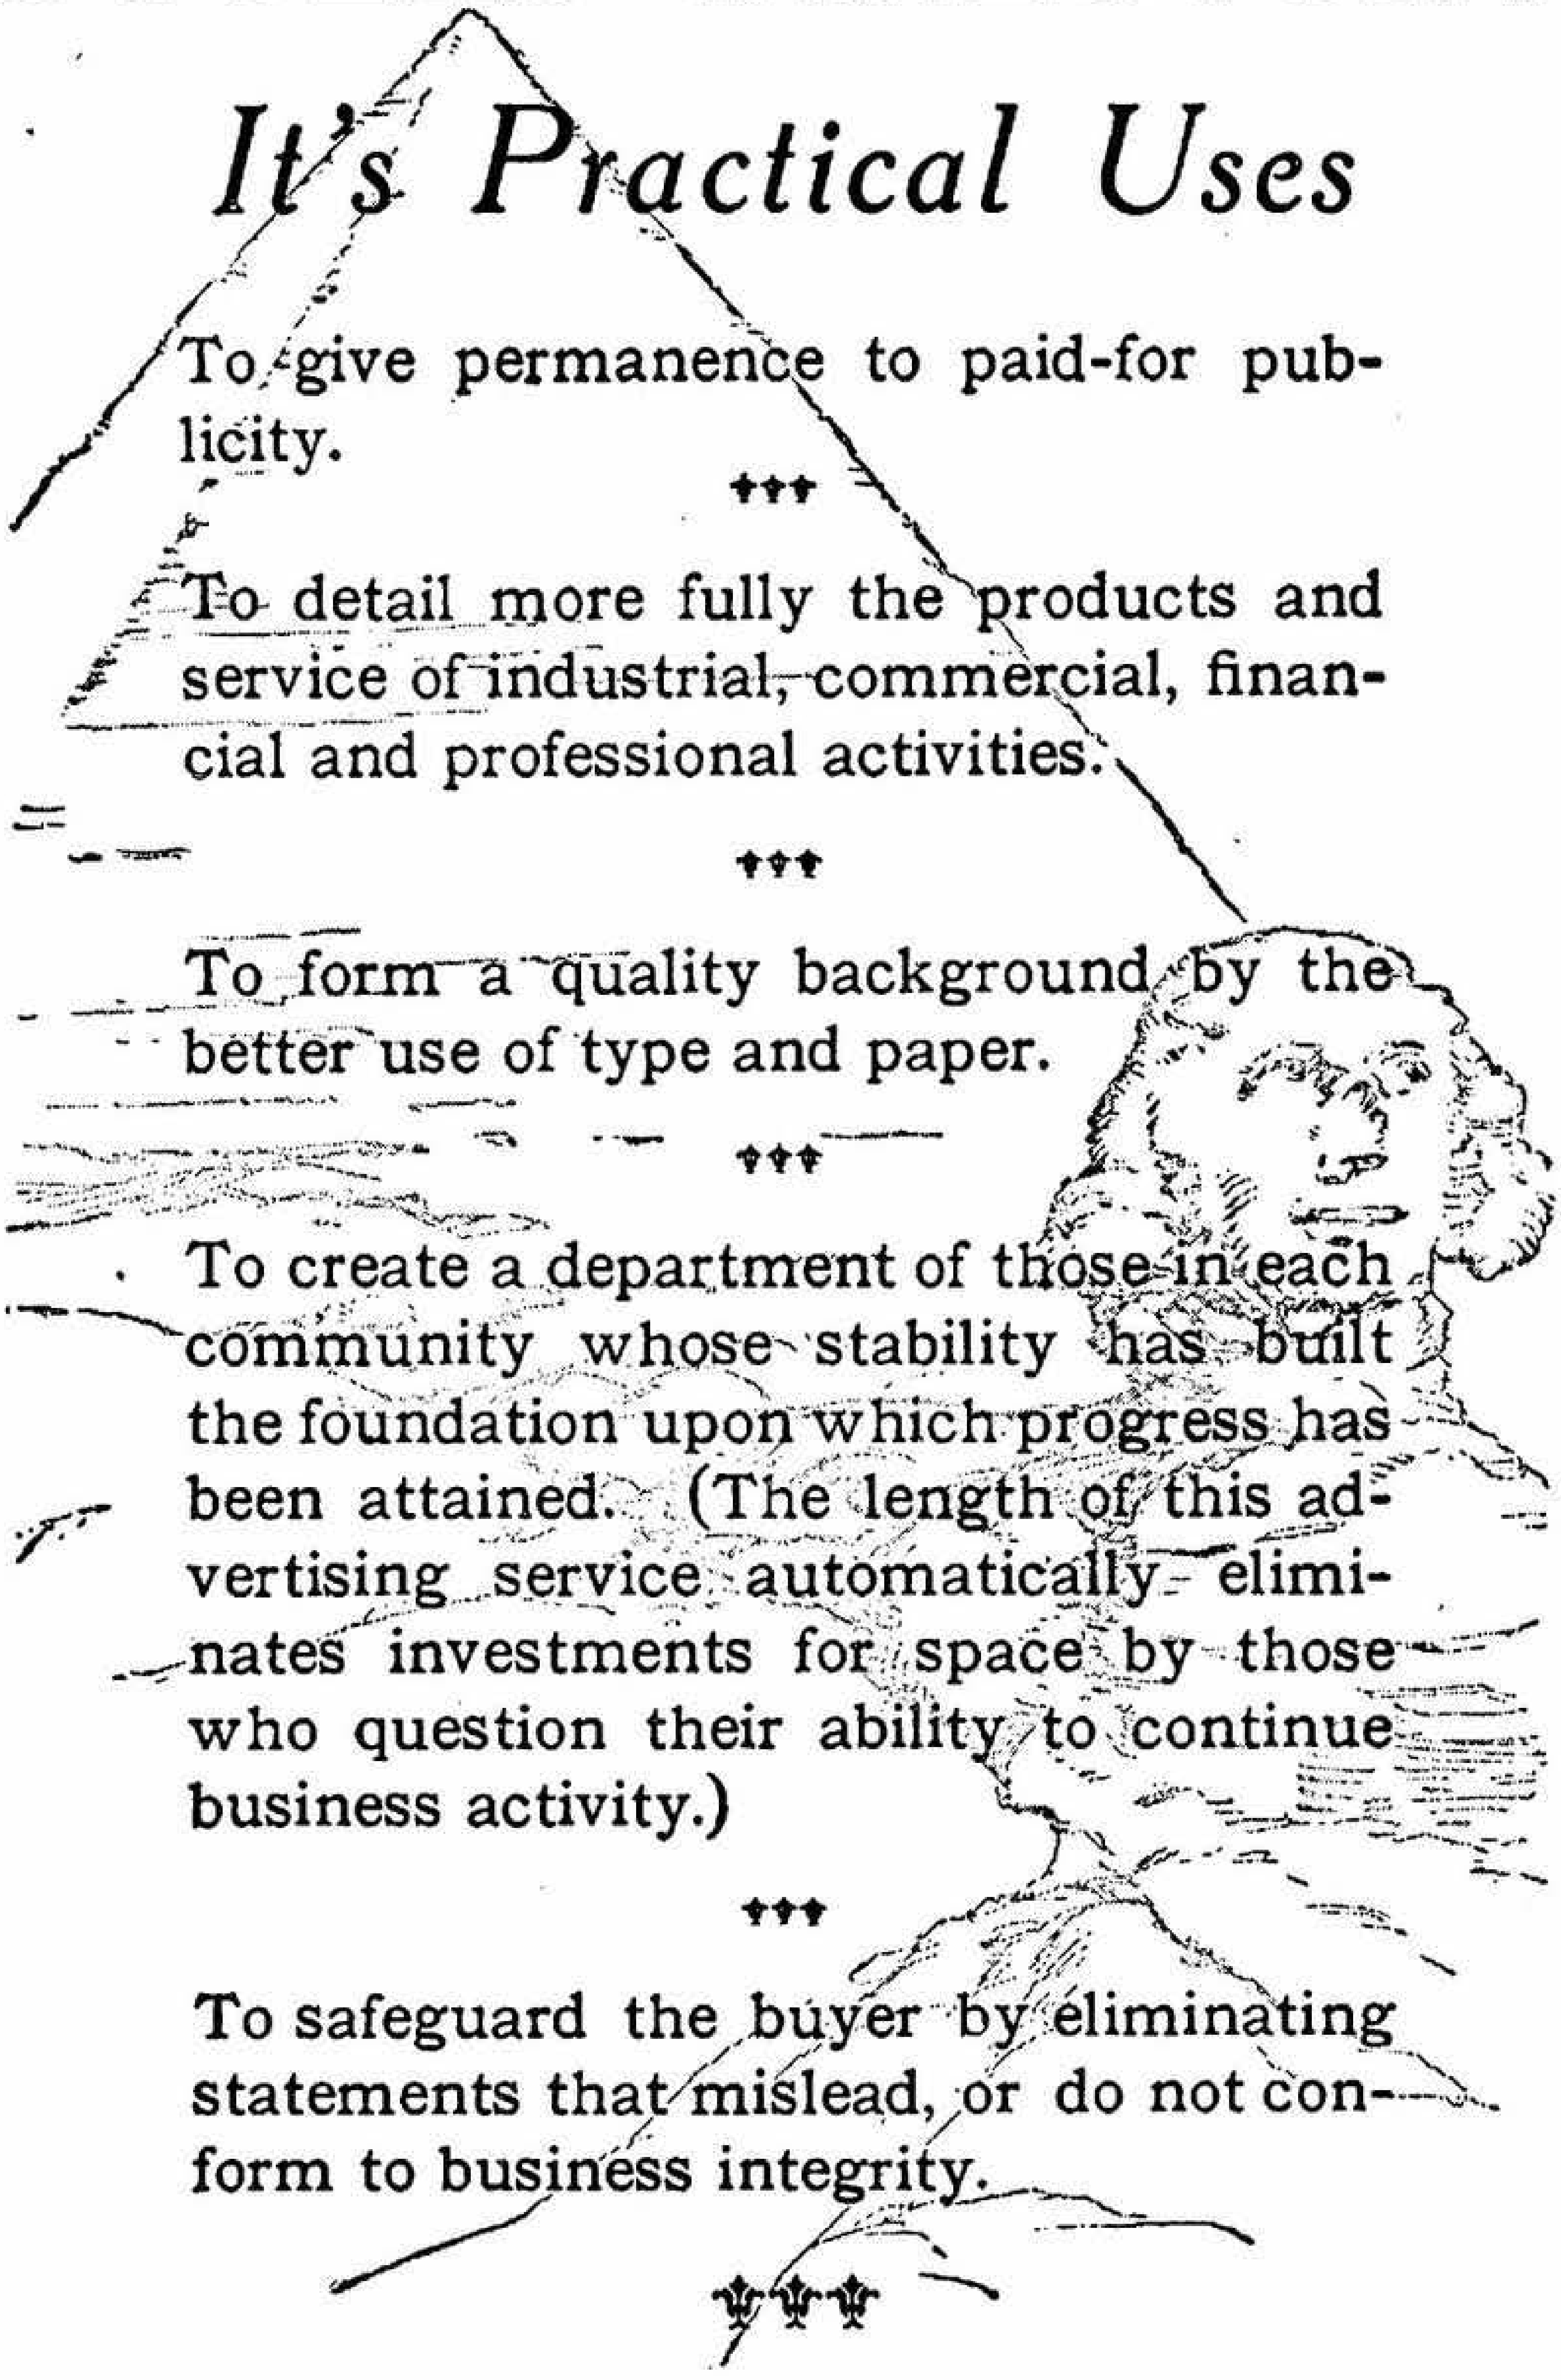
THE PRICE & LEE CO.

Publishers City Directories.

"Of the people, for the people"
Since 1873

BUYERS' DIRECTORY

It's Practical Uses



To give permanence to paid-for publicity.

* * *

To detail more fully the products and service of industrial, commercial, financial and professional activities.

* * *

To form a quality background by the better use of type and paper.

* * *

To create a department of those in each community whose stability has built the foundation upon which progress has been attained. (The length of this advertising service automatically eliminates investments for space by those who question their ability to continue business activity.)

* * *

To safeguard the buyer by eliminating statements that mislead, or do not conform to business integrity.

* * *

THE W. B. DAVIS COMPANY
DAVIS "GOOD CLOTHES"
FOR
MEN WOMEN BOYS
CLEVELAND

Cleveland Directory, January 9, 1925
Old Arcade,
City.

Gentlemen:

Referring to yours of yesterday acknowledging our order for Directory for 1925. Permit us to say that we know of no money we spend which brings so great a return as that for the City Directory.

Your product certainly represents a very important piece of work splendidly accomplished. In this connection also permit me to express my appreciation for the use of the directories of other cities which you keep on file in your office. I often find them a matter of great convenience and feel almost ashamed to make use of them without payment.

Very truly,
THE W. B. DAVIS COMPANY.

The Morris Plan Company
of Springfield

extends financial accommodation for constructive purposes to wage earners, salaried employees, small merchants and professional men and women, providing a convenient weekly or monthly plan for repayment. Loans are made for six months to one year for any amount from $50 to $2,000 or more.

RATE SCHEDULE.

Amount of Note	We Charge	You Receive	You Pay for 50 Weeks
$ 50.00	$ 4.00	$ 46.00	$1.00
100.00	8.00	92.00	2.00
150.00	10.00	140.00	3.00
200.00	12.00	188.00	4.00
250.00	15.00	235.00	5.00
300.00	18.00	282.00	6.00
350.00	21.00	329.00	7.00
400.00	24.00	376.00	8.00
450.00	27.00	423.00	9.00
500.00	30.00	470.00	10.00
1000.00	60.00	940.00	20.00

Above schedule shows total cost of our Morris Plan loans. No additional charge when payments are made according to agreement. Compare our rates with those of loan companies.

An account with The Morris Plan Company is proof that you have a reputation for paying your obligations and that you have friends who have faith in you.

Before you borrow—know the cost.

Applications and further information may be obtained at our office or by mail.

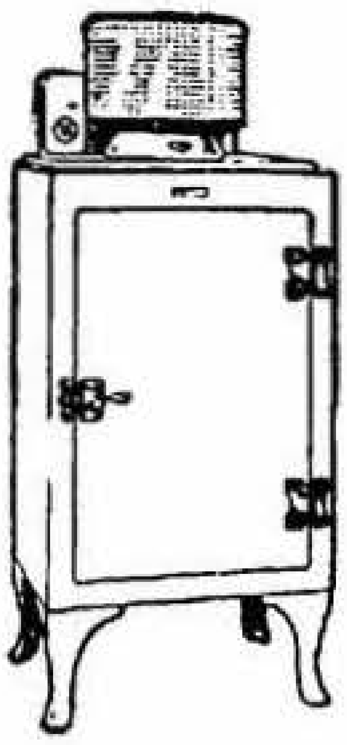
Electric Refrigeration

GENERAL ELECTRIC Refrigerator



Outstanding Advantages

Simplified—no pipes, no drains, no attachments. Portable—Install anywhere. Just plug into nearest electric outlet and it starts.

Quiet—unusually quiet in operation.

No Servicing—never needs oiling or attention. All moving parts are enclosed in an hermetically sealed housing.

Economical—uses very little current and maintains uniform temperature.

Clean—the circulation of air through the coils drives dust away from the top of the refrigerator.

Superfluous Hair Removed by Electrolysis

OVER two score years ago, Dr. Mitchel, oculist, of St. Louis, evolved a method of using electricity for the permanent removal of ingrowing eyelashes. Soon after, his friend, Dr. Hardaway, conceived the idea of using this method for the removal of Superfluous Hair from the human face. Today, physicians everywhere, recommend this method as the only sure way of obtaining permanent relief from this annoying condition.

For thirty-eight years this office has employed *this* method—*the* method discovered by one, and employed by ALL the old masters, the single electric needle process, in painlessly disposing of these disquieting blemishes *for all time.*

Moles and Warts also safely removed.

You are invited to phone, write or call for complete information and demonstration sitting without obligation.

Absolute Privacy *Strictest Confidence* *Physicians' References*

Ask our man to show how

The Price & Lee Co.

YOU WILL NEVER REGRET

Many methods of saving money can be utilized today. It is well worth while for you to investigate each carefully. None can be found that offers more than security of savings, good dividends, and an immediate estate for the protection of your dependents.

Life Insurance offers all of these.

Is it not wisest, then, to put a large portion of your savings into Life Insurance? Security and dividends are thus assured, and at the same time full protection is obtained for those who are dependent upon you.

Start today! The younger a man is when he takes a policy, the smaller the amount of the annual deposit needed. Acquire the thrift habit early in life. You will never regret having done so. The money you lay by for Life Insurance will sooner or later prove of utmost value to you.

THE City Directory is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the classified list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. A modern up-to-date method of getting what you want.

Reference Advertising

HE who buys space in the City Directory buys advertising permanency. Every day thousands of business men all over the country search its classified sections to find where nationally advertised goods may be purchased. City Directory ("Reference") Advertising is the completing girder in the bridge between dealer and consumer, and should be part of all national and local campaigns.

Manufacturing Department

SPRINGFIELD PRODUCTS are known the world over. The following pages are an index to the wide range and variety, the kind and quality of manufactured articles produced in this great and growing city. As a distributing center for Western New England and Eastern New York, Springfield offers exceptional advantages. A live, progressive Chamber of Commerce, a large market of skilled labor, and splendid railroad facilities — insure progress, prosperity and publicity to the City of Homes. When doing business with concerns advertised in the following pages, please mention the City Directory

The Sign Over Your Door

Is a good thing, isn't it? You would not think of doing business without it.

But it is only seen by those who pass your way.

If you could put a sign where everyone could see it would it interest you?

THE CITY DIRECTORY

Is where people look for you when they want to do business. You should make it easy for them to find you, by putting such information as a buyer wants, in the Directory properly indexed under all headings where he might look for you.

To be properly registered costs less than to be left out

Reference Advertising

HE who buys space in the City Directory buys advertising permanency. Every day thousands of business men all over the country search its classified sections to find where nationally advertised goods may be purchased. City Directory ("Reference") Advertising is the completing girder in the bridge between dealer and consumer, and should be part of all national and local campaigns.

MOVING?—

get a Sulli-VAN *whether it's a chair —or a houseful!*

**PACKING
STORAGE
PIANO MOVING
OFFICE MOVING**

The superb fleet of de luxe SULLI-VANS that plies daily between the principal cities of the East will transport your furniture surely, speedily, SAFELY. For every one of our drivers is trained to exercise the same care as though the property belonged to HIM instead of to YOU. Just entrust it to a Sulli-VAN and then forget it!

Sulli-VAN FURNITURE EXPRESS

A brand NEW service!-- we accept anything from a full load to a single piece of furniture. Operating on regular schedules between Springfield, Boston, New York, Philadelphia and way points (see map). Cheaper than shipping by freight—no crating expense—and think of the time saving!

J. J. Sullivan *the* MOVER Inc.

ANCHOR POST IRON WORKS

Richmond Directory Co.,
Yonkers, N. Y.
Gentlemen:

We have advertised our products in your several city directory publications for many years. We have also advertised in various other directories, all of our advertising being keyed so that we could determine whether this kind of advertising paid us.

During the period of one year, we have traced business amounting to over $40,000 directly to this advertising. We thought that you and other directory publishers would be glad to know this.

Very truly yours,
LHJ/CS
